COMPUWARE/TI GIRLS U16 SPECIAL BUCKEYE WEEKEND

COLUMBUS, OH -- The Compuware and Team Illinois Girls U16 Teams had a unique experience this past weekend as they were hosted by The Ohio State University Women's Club Team in Columbus, OH. Club Team Head Coach John Damrath organized the event that included on-ice interaction with the Buckeye Club Team, exhibition games with each other, and with the local Columbus Blue Jackets U16-Elite Girls Team.

Most importantly, the experience included an introduction to Nate Handrahan, Varsity Women's Head Coach, who spoke to the players and parents of both Compuware and Team Illinois about Division 1 Women's hockey in general, and answered questions about Ohio State's D1 Program.

The girls and parents also learned more about the Club Hockey Program at Ohio State, and received campus tours guided by the Women's Club Team members. It was a great time and a great departure from the typical tournament weekend, as players and parents gained new perspective on options after high school and youth hockey.
